Sir

Sub: Kasturba Medical College, Mangalore - Clinical Training for the Students - Facilities to be provided at the Government Hospitals, Mangalore.

Ref: Your P.O.No. 1278/55-56, dated 9-8-55.

→ p 9 infra ← p 3-7 infra

I am herewith enclosing a copy of a letter addressed to the Director of Medical Services, Madras State, Madras on the above subject. Apart from what I have written to the Director of Medical Services, Madras, I think it is very essential to take up this question at a higher level and see that suitable action is taken in the matter so that there may not be any difficulty in starting the clinical demonstrations in the various subjects mentioned in the letter from January, 56.

It may be desirable to have a joint conference between the authorities of the College, the Director of Medical Services the Health Secretary to the Government of Madras and the Ministe for Health to decide how best the Wenlock Hospital could be expanded in order to give the necessary clinical facilities for the Students.

As I have already mentioned to you, judging from the number of beds made available for the College now and the existing facilities for routine investigations, there is immediate necessity for considerable improvement. As the students will enter on their second year clinical course in January, 1956, this matter will have to be taken up very urgently and some decision arrived at as regards the future of the Wenlock Hospital.

Yours faithfully,

M.V. Ramanamurti

KASTURBA MEDICAL COLLEGE
22 AUG 1955
MANIPAL-S. KANARA

The Director of Medical Services,
Madras State,
MADRAS.

Sir,

Sub: KASTURBA MEDICAL COLLEGE, MANGALORE - Clinical training for the Students - Facilities to be provided at the Government Hospitals, Mangalore.
Ref: G.O.Ms.No.3425, Health, dated 20-12-1954.

I invite your kind attention to para 3 of the G.O. cited, wherein it was stated that "the present Honorary Medical Officers of the Government hospitals concerned should be employed by the College Authorities on terms mutually agreed and the E.N.T., Ophthalmic, tuberculosis etc., departments should be placed in charge of the Honorary Assistant Surgeons, who will do the teaching work on conditions mutually accepted."

In para 4 (a) of the same G.O. it was mentioned that "the authorities of the College must safeguard the interests of the Honorary Medical Officers who are at present working in the Wenlock and Lady Goschen Hospitals, Mangalore and their successors who will be appointed by the Government in accordance with the existing rules, by suitably providing for them."

When the present batch of students in the Clinical section of this College enter on the second year of their clinical course in January, 1956, the following subjects will have to be taught in addition to those that are already taken up this year.

Obstetrics & Gynaecology, Ophthalmology, Oto-rhino-laryngology, Dermatology & Venerealogy, tuberculosis and Radiology & Physiotherapy. Arrangements have already been made for the Staff in Obstetrics and Gynaecology, vide G.O.Ms.No.134, Health, dated 11-1-1955.

The following Honorary Assistant Medical Officers are in sub charge of the departments noted against their names in the Wenlock Hospital, Mangalore.

(1) Dr. K.Krishna Bhat, M.B.B.S.,L.O., Ophthalmology.
(2) Dr. K.Satyashankar, M.B.B.S.,D.L.O.,Oto-rhino-laryngology.

P.T.O.

3. Dr.B.Ramanna Hegde, L.M.P., Dermatology & Venerealogy.
4. Dr. V.R.Bhat, M.B.B.S., T.D.D., Tuberculosis.

Dr. C.G.Padmanabha Rao, D.M.S., D.M.R., Civil Assistant Surgeon - Radiology.

The Honorary Assistant Medical Officers in Ophthalmology and Dermatology & Venerealogy cannot be considered at all for appointment in the College to teach the students as the former is only a licentiate in Ophthalmology and the latter is an L.M.P.

As regards the other two honorary assistant medical officers they may be taken as tutors or lecturers if better qualified persons are not available. As far as E.N.T. department is concerned, Dr.D.Hari Rao, M.B.B.S., D.L.O., F.R.C.S., is already designated as Professor of Oto-rhino-laryngology in this College and he may be considered for appointment as an Honorary Surgeon in the E.N.T. department of the Wenlock Hospital.

It follows that for the other three departments, viz., Ophthalmology, Tuberculosis and Dermatology & Venerealogy, the college will have to appoint persons who have the necessary post-graduate qualification and teaching experience to avoid any objection by the University and the Indian Medical Council.

Under the above circumstances, it may not be possible to give effect to the G.O. mentioned above by taking the present Honorary Assistant Medical Officers on the Staff of the College. However, as their position has to be safuguarded, they may have to work as assistants under better qualified persons. At present although they hold subcharge of the departments under the District Medical Officer, they are running them more or less independently; but as they are designated as Honorary Assistant Medical Officers and not as honorary Medical Officers, there may not be any objection for their working as assistants if suitable Honorary Medical Officers with the required qualifications are appointed to be in full charge of the respective departments. If there were to be any objection for this, additional units may have to be formed for the College; but with the accommodation and facilities available both in the Wards and in the Out-patient department, it is not desirable to have two units in each of these specialities.

As the College will have to take steps to appoint suitable persons in these specialities before January, 1956, I request you to consider the whole position in the light of what has been stated above and address the Government for sanctioning additional Honorary posts in Ophthalmology, Oto-rhino-laryngology, Dermatology & Venerealogy and Tuberculosis.

P.T.O.

8 As regards Radiology, Dr. C.G.Padmanabha Rao holds only a Diploma in Medicine and Surgery and does not have the necessary basic qualification (M.B.B.S.). I request that a suitable person with the qualification of M.B.B.S., D.M.R., may kindly be posted as a Radiologist in the Wenlock Hospital.

Yours faithfully,

M V Ramamurthy

P.O.ಸಂ.೧೭೯/55-56. August 9, 1955.

The Principal,
Kasturba Medical College,
MANGALORE.

Dear Sir,

Sub:- Staff of the Kasturba Medical College.

Ref:- Your letter C.No.1116/G1-B/55 dated 5-8-1955.

I have your above letter. I note that additional subjects will have to be introduced. On the lines you have indicated, you can see whether a letter can be addressed to the Director of Medical Services and the various departmental heads can be substituted by properly qualified men. We will have to act in consultation with them. The steps taken, therefore, may be after consulting them.

Regarding the Professor of E.N.T., you have raised a number of questions. These have got to be tackled with the Director of Medical Services. Hence you will be the proper person to see how these can be tackled. The Government has taken an attitude that their honoraries cannot be disturbed. Hence either we will have to manage with their honoraries or consult the Director of Medical Services and take his advice. It is, therefore, suggested that you may write to the Director of Medical Services requesting his assistance in all these matters. We will go into the question at the time of the next Trustees' meeting.

Yours faithfully,

REGISTRAR

Ref. C.No. 1116/31-P/55. *Date* 5-8-1955.

KASTURBA MEDICAL 9 - AUG 1955 MANIPAL-S. KANARA.

The Registrar,
Kasturba Medical College,
Manipal.

Sir,

Sub: Staff of the Kasturba Medical College -

The second year clinical course will commence for the first batch of the students in January, 1956. The following subjects will be taught in addition to the subjects that are being taught at present:

1) Ophthalmology.
2) Oto-rhino-laryngology.
3) Dermatology.
4) Venereology.
5) Dental Surgery.
6) Tuberculosis.
7) Obstetrics & Gynaecology.
8) Radiology & Physiotherapy

The students will have to be posted in the various departments in batches and most of the work in the specialities will have to be finished before they enter the third year clinical course in January, 1957. It is necessary to take steps to appoint the Staff for the various departments.

Action has been taken as regards the Obstetrics and Gynaecology department.

pp 153-159 cf J

It was mentioned in Para 3 of G.O.No.3425, dated 20-12-54 that the honoraries in Special Departments like E.N.T., Ophthalmology etc., should be employed by the College authorities on terms of mutual agreement and their services should be utilised for giving the necessary clinical instructions to the students. The question of their qualifications and experience being sufficient for occupying the posts of teaching as stipulated by the Indian Medical Council will have to be considered.

E.N.T.:- Dr.V.Satyashankar is an Honorary Assistant Medical Officer in the E.N.T. department. He has a D.L.O. qualification in addition to his basic qualification of M.B.& B.S. This may be sufficient for his appointment as a tutor but he has no experience at all in teaching. Apart from this, Dr.P.Hari Rao was assured that he would be given work in the E.N.T. department. He has already been designated as Profe-

E.N.T.O.

of Oto-rhino-laryngology. Although he has been an Anaesthetist for a long time, he had some experience in teaching Oto-rhino-laryngology to the College Students besides the teaching experience in Anaesthesia. So both by his qualifications and by his teaching experience his appointment as a Professor of Oto-rhino-laryngology may not be questioned by the Indian Medical Council. He cannot hold two appointments in the hospital, i.e., honorary E.N.T.Medical Officer and Honorary Anaesthetist. So it follows that an Anaesthetist should be appointed and he should be relieved of the routine duties in Anaesthesia. However, with the permission of the Government, his services may be utilised for training the students and Medical Officers in Anaesthesia. If he is appointed, the position of Dr.J.Satyashankar will have to be decided. He may either be taken as a tutor and considered as an Honorary Assistant Medical Officer under Dr.D.Hari Rao, but if there were to be any objection for this, he should be given independent beds, i.e., the existing number of beds, and additional beds will have to be allotted to Dr.D.Hari Rao. In such a case, the admission days will have to be divided between these two officers.

Ophthalmology:- Dr.K.Krishna Bhat is the Honorary Assistant Medical Officer in Ophthalmology. His qualifications are M.S., M.S., D.O. I do not think that the Indian Medical Council will accept his post-graduate qualification "D.O." as sufficient to be a teacher in Ophthalmology in a College. Apart from this, he has no teaching experience. So it will be necessary to obtain the services of an honorary Ophthalmic Surgeon for the hospital with collateral duties in the College.

Dermatology and Venereology:- Dr.P.Ramanna Hegde is an Honorary Assistant Medical Officer working in the Venereology department in the hospital. His qualification is D.V.D. and he cannot be considered for a teaching post in the College. An officer with suitable qualifications preferably with diploma in Venereology will have to be appointed for both Dermatology and Venereology.

It is necessary to appoint separate officers for both the two subjects.

Tuberculosis: Dr.K.V.Bhat is the Honorary Assistant Medical Officer in Tuberculosis. His qualifications are M.B.B.S., D.T.D. Although these may be recognised for the post of a tutor in Tuberculosis, he does not have any teaching experience.

Dental Surgery: Dr.A.T.Rai, L.D.S.,(Calcutta): I think the regulations require that a person who teaches dental surgery to the Medical College student should have the basic qualification of M.D.S. If this is not insisted upon, it is for consideration whether the qualification of

P.T.C.

L.D.S.,(Calcutta) will be accepted by the Indian Medical Council for teaching Dental Surgery.

Radiology and Physiotherapy: The qualifications of the present Radiologist are D.M.R., D.M.R. His D.M.R. qualification will not be recognised for teaching College students. The Government may have to be requested to post a person with M.D.R.E. and D.M.R. qualifications and to permit him to teach the Students of this College.

Obstetrics and Gynaecology: The persons to be appointed as Professor and Reader have already been fixed up. Each unit should have a full time Medical Officer to be appointed by the Government. The Director of Medical Services has already been addressed to issue instructions for the formation of one unit in this subject by 1st October, 1955 and to appoint a full time paid tutor. A part time tutor will have to be appointed for this subject. Dr.(Smt.) Tara S.Karnad has already been mentioned as Honorary Assistant Medical Officer in Obstetrics in G.O.Ms.No.134, Health, dated 11-1-55 I presume that this appointment still holds good and that she can be appointed as a part time tutor in the College in Obstetrics and Gynaecology.

P23cf - (5)

As the appointments in the special subjects will have to be fixed up by 1-1-1956, I request that you may kindly take necessary steps in the matter. After a decision is arrived at as regards these appointments, the Government will have to be addressed to create fresh appointments if necessary and to appoint the officers selected by the College as Honorary Medical Officers or Honorary Assistant Medical Officers in the hospital if they do not already hold this rank.

Yours faithfully,

M. Ramamurthy

Ref.No.77415-E2/55. Dated 4-11-55.

Sir,

Sub: Honorary Medical Officers - Wenlock Hospital, Mangalore - Creation of posts of Honorary Medical Officers - Proposals.

Ref: Govt. Memo. No.85219-HI/55-1 Health dated 1-9-55.

I have to state that the Principal, Kasturba Medical College, Mangalore has submitted proposals for the creation of two posts of Honorary Medical Officers, one for the Anaesthesia and One in the Clinical Pathology departments of Wenlock Hospital, Mangalore in addition to the posts proposed in his letter referred to in the Government memorandum cited. A copy of his letter No.327-G/55 dated 3-8-55 together with copies of subsequent letters and the remarks of the District Medical Officer, Mangalore is enclosed for the information of the Government. My remarks on the proposals are as follows:-

1. Honorary Medical Officer, Anaesthesia.

There is already one post of Honorary Medical Officer, (Anaesthesia) and it is now held by Dr. D. Hari Rao. The present proposal of the Principal is to create one more post of Honorary Medical Officer, (Anaesthesia). I do not consider that there is any necessity for the creation of an additional honorary post in the grade of Honorary Medical Officer in the subject. I therefore recommend that one post of Honorary Assistant Medical Officer may be created for the department in addition to the existing post of Honorary Medical Officer.

2. Honorary Medical Officer, Clinical Pathology.

The Principal has recommended the creation of a post of Honorary Medical Officer, (Clinical Pathology) in the Wenlock Hospital, Mangalore. In addition to it, he has also suggested that the Professors of Pathology, Bacteriology and Biochemistry who are attached to the Kasturba Medical College may be designated as Honorary Medical Officers as they will have to work in the hospital laboratory and supervise the work of the Honorary Medical Officer (Clinical Pathology). I consider that there is not justification for the creation of a seperate post of Clinical Pathologist in the grade of Honorary Medical Officer, expecially as his work is proposed to be supervised by Professor of Pathology, Kasturba Medical College. It will be sufficient if a post of Honorary Assistant Medical Officer, (Clinical Pathology) is created in the hospital for the purpose and I accordingly recommend the same for the sanction of the Government.

As regards the proposal for designating the Professors of Pathology, Bacteriology, and Biochemistry(Non-Medical) of the Kasturba Medical College as Honorary Medical Officers in the hospital, I consider that the fact that the Professor of Pathology will have to supervise the work in the hospital laboratory and the other two Professors also will have some work there does not warrant their appointment as Honorary Medical Officers in the hospital. It will be sufficient if they are permitted to supervise or carry on work in the laboratory,

3. Honorary Medical Officers. Ophthalmology, Dermatology and Venereology and Tuberculosis.

The following Honorary Assistant Medical Officers are at present in sub-charge of the departments.

1. Dr. K. Krishna Bhat, MBBS., LO., (Ophthalmic)
2. Dr. Sathyashankar, MBBS., DLO., (Ear, Nose & Throat)
3. Dr. B. Ramanna Hegde, LMP., (Venereal Diseases)
4. Dr. V. R. Bhat, MBBS., TDD., (Tuberculosis)

The Principal states that for all the above departments persons possessing required post-graduate qualification and teaching experience should be appointed with a view to avoid any objection by the University and Indian Medical Council. With reference to the Ear, Nose, Throat, department he has suggested that Dr. Hari Rao who is at present the Honorary Medical Officer (Anaesthesia) may be appointed as Ear, Nose & Throat

24

Surgeon in view of his experience and higher qualification in the subject. As regards the present Honorary Assistant Medical Officers he considers that it will not be possible to safequard their present appointment and that they may hage to work as Assistants under better qualified persons who are to be in charge of these departments.

---- roposal involves the creation of four posts of Honorary Medical Officers, one each in the departments of Ophthalmology, Oto-rhino-laryngology, Dermatology and Venerealogy and Tuberculosis, and I recommend the same for the sanction of Government. As regards the Principal's proposal to appoint Dr. Hari Rao as Ear, Nose, & Throat, Surgeon it may be stated that the post of Honorary Medical Officer, (Ear, Nose & Throat) will have to be advertised along with other posts of Honorary Medical Officers. Dr. Hari Rao will have to apply for it and his application can be considered along with other applicants. He will also have to relinguish his present appointment as Ear, Nose & Throat Surgeon.

According to para 4 of G.O.Ms.No.3425 Health dated 20-12-54, the interests of the Honorary Assistant Medical Officers working in the four departments referred to will have to be safeguarded. As it may not be possible to continue them in sub-charge of the departments they may, as suggested by the Principal, have to work as Assistants to the Honorary Medical Officers to be appointed to these departments. In the case of 2 of the Honorary Assistant Medical Officers (Viz., Dr.K.Krishna Bhat and Dr. B.R. Hegde) the Principal has stated that they cannot at all be considered for teaching students of the College. They will have, therefore, to continue as additional Honorary Assistant Medical Officers in the departments without any teaching work in the College.

Department of Radiology in the Wenlock Hospital, Mangalore.

With a view to afford facilities for teaching to the students of the Kasturba Medical College, Mangalore in Radiology, the Government have ordered the installation of a Deep X-ray therapy in the Wenlock Hospital, Mangalore-Vide G.O.No.Ms.88, Health dated 8-1-55. In this connection, it was considered necessary to post an Assistant Surgeon with requisite qualification to the Radiological Department as lecturer (Cate 10 of classI of the Madras Medical Services) in addition to the Assistant Surgeon, already working in the Institution as Radiologist. Proposals have been sent to Government separately for the creation of a post of clinical Lecturer in Radiology in the grade of an Assistant Surgeon for the Wenlock Hospital, Mangalore-vide this office letter Ref.No.88691-2-E1/55 dated 21-10-55. When the new post of lecturer is sanctioned an Assistant Surgeon with requisite qualification will be posted to fill up the post.

Yours faithfully,

Director of Medical Services.

RA/3-11.

Principal 25

Copy of letter Ref.C.No.327/G2-B/55 dated 5-8-55 of the Kasturba Medical College, Mangalore-1, to the Director of Medical Services, Madras-6.

Ref: Your Ref.No.26340-E2/55, dated 11-7-55.

I request that the Government may kindly be addressed for sanctioning the following posts for the Wenlock Hospital, Mangalore. They will be borne on the teaching staff of the College but as they will have to work in the Hospital also, they will have to be appointed as Honorary Medical Officers for which sanction of the Government is required.

1. Anaesthetist.
2. Clinical Pathologist.

1) Anaesthetist:

pp21-27 (5)

At present there is only one honorary Anaesthetist sanctioned for the Wenlock Hospital (Vide G.O.Ms.No.134, dated 11-1-55). There are three surgical units now functioning in the Hospital under the three Honorary surgeons who are also on the Staff of the College. It is not possible for one Anaesthetist to give anaesthesia for all the cases of the three Surgeons and attend to the emergencies admitted into their wards. Hence, an additional Anaesthetist to give anaesthesia for the cases of the three surgeons is absolutely necessary.

2) Clinical Pathologist:

The Kasturba Medical College has undertaken to carry out the various laboratory investigations required for the patients in Government hospitals in the South Kanara District, and at present whatever investigations that are possible, are being done in the Pathology, Bacteriology and the Biochemistry laboratories of the College. Most of the work is from the Wenlock Hospital and the Lady Goshen Hospital which are clinical institutions and of these there is more from the Wenlock Hospital. It is necessary to have a section of the laboratories in the Wenlock Hospital for the following reasons: p.t.o.

1) The Students of the Kasturba Medical College are posted to this Hospital for clinical training in Medicine, Surgery and the specialities. They will have to be guided in carrying out certain routine investigations for the patients under them.

2) It will be more convenient for the patients if investigations such as B.M.R., test meal, glucose tolerance etc. are done in the Hospital instead of their being sent to the College.

3) The Indian Medical Council insists that there should be a clinical pathologist for each hospital where clinical instruction is given to Medical College Students.

Under the above circumstances, I request that the Government may be addressed to sanction the appointment of an Honorary Clinical Pathologist for the hospital, who will be on the Staff of the Kasturba Medical College and attached to the Pathology Department of the College. He will have to work necessarily under the direction of the Professor of Pathology of the Kasturba Medical College. I presume that the following Officers who are already on the Staff of the Kasturba Medical College and who are now carrying out the Laboratory Investigations in the College will be permitted either to direct or assist the Clinical Pathologist in the Hospital whenever necessary.

1) Dr. G.D. Velliath, M.D. D.T.M., Professor of Pathology.
2) Dr. P.G. Gollerkeri, M.D., Professor of Bacteriology.
3) Sri B.R. Das, B.Sc., (Hons) M.Sc., Biochemist.
4) Dr. M.S. Nilakanta Rao, B.Sc., MBBS., Demonstrator in Pathology.

If necessary, permission may please be obtained for these officers also to work in the Clinical Laboratory located in the Hospital.

I request that necessary action may kindly be taken to obtain the sanction of the Government at a very early date. The two posts of Anaesthetist and Clinical Pathologist will be advertised for after obtaining the sanction of the Government.

/True copy/

For Director of Medical Services.

Copy of letter Ref.C.No.327/G2-B/55 dated 2-9-55 from the Principal, The Kasturba Medical College, Mangalore-1,

---

Ref: Your Endt. C.No.129229/E1/55 dated 28-8-55.

I am herewith offering my remarks on the Memo.No.77415-E2/55 dated 22-8-1955 from the Director of Medical Services, Madras.

Honorary Medical Officer (Anaesthesia):-

The post now proposed to be created is one more post of Honorary Medical Officer and not Honorary Assistant Medical Officer. There will be an Obstetrician & Gynaecologist from the College side working in the Lady Goschen Hospital from 1-10-55 and from about March, 1956, it is proposed to have an additional unit in Obstetrics and Gynaecology. Further, the special departments such as E.N.T. and Ophthalmology will have to be started from January, 1956. So there will be three Surgical units, two Obstetrics, Gynaecology units, an E.N.T. and an Ophthalmic unit from the College side. It ~~is~~ would be necessary to have an additional Anaesthetist with a post-graduate qualification, D.A. and sufficient experience as he will have to give Anaesthesia independantly for major cases. It is proposed to start him on a scale of pay higher than that of an Assistant Surgeon which will be paid by the College and so his status will be more than that of Honorary Assistant Medical Officer. Under the circumstances mentioned above, the appointment of an additional Honorary Medical Officer and not Honorary Assistant Medical Officer is necesary. When all the units begin to function both the Anaesthetists will be fully occupied in giving Anaesthesia to the patients under the College Staff and probably an additional anaesthetist of the rank, Honorary Medical Officer or Honorary Assistant Medical Officer, will have to be appointed at a later date. I may mention in this connection that these Honorary Medical Officers will be required to give anaesthesia exclusively for the cases under the College Staff.

Clinical Pathologist:-

It is proposed to create a new post of Honorary Medical Officer and not Honorary Assistant Medical Officer although he works under the direction of the Professor of Pathology of the Kasturba Medical College. I suggest that he may be designated as Honorary Clinical Pathologist.

Copy of letter Ref.C.No.327/G2-B/55 dated 6-9-55 from the Principal, The Kasturba Medical College, Mangalore.

Ref: Your Endt.C.No.12929-E1/55 dated 28-8-55 and this office Ref:C.No.327/G2-B/55 dated 2-9-55.

The work of the Clinical Pathologist in the Laboratory will have to be supervised by the Professor of Pathology of the Kasturba Medical College, Mangalore. It may also be necessary for the Professor of Bacteriology to occassionally guide the Clinical Pathologist.

The Biochemist of this College may have to work in the Clinical Laboratory of the Hospital whenever there is a case sent for B.M.R., gastric analysis etc. It follows that these persons who are now entirely attached to the Medical College should have some status in the Hospital. I request that necessary steps may kindly be taken to have them designated as Honorary Pathologist, Honorary Bacteriologist and Honorary Biochemist.

Copy of letter C.No.12929-E1/55-2 dated 10-9-55 of the District Medical Officer, South Kanara, Mangalore, to the Director of Medical Services, Madras-6.

Ref: Your Memo.Ref.No.77415-E2/55 dated 2-9-55.

I submit the following remarks:-

~~P~~ 155 cf (J)

As per para 4 of G.O.Ms.No. 3425 Health dated 20-12-54, the interests of the Honorary Assistant Medical Officers now working will have to be safeguard.

Name of Hon.Medical Officers.	Date of Appointment.	Term of appointment ends on.
1.Dr. K. Krishna Bhat, MBBS.,L.O. Hon.Asst. Medical Officer, (Ophthalmic)	27-1-1954.	26-1-1959

P.t.o.

28

2. Dr. K. Sathyashanker, MBBS., DLO., Hon.Asst. Medical Officer, (Oto-rhino.laryngology)	24-1-1954	23-1-1959
3. Dr.B. Ramanna Hegde , LMP., Hon.Asst.Medical Officer, (Undergone 6 months training in Venereal Dept. of the Up-graded V.D. Dept. General Hospital, Madras) (Veneriology.)	19-11-1952	18-11-1957
4. Dr. V.R. Bhat, MBBS., TDD., Hon.Asst. Medical Officer, (Tuberculosis Dept.)	25-1-1954.	24-1-1959.

The above four.Honorary ~~Assistant~~ Assistant Medical Officers will have.to be continued till their term expires, though they may not have any experience for teaching M.B. Students. As there would be hardly any scope or room in the hospital for two units functioning side by side in each speciality (one unit incharge of the above honorary Assistant Medical Officers and one unit in charge of the Kasturba Medical College teaching staff), it is my opinion that:-

(i) There can be only one unit in each speciality.

(ii) the teaching staff selected by the Kasturba Medical College with requisite qualifications and experience will have to be appointed in the Grade of Honorary Medical Officers in charge of the departments and the four Honorary Assistant Medical Officers named above will have to work as their assistants.

(iii). In cases where these Honorary Assistant Medical Officers are found suitable and selected by the College authorities as Assistants they will act as their assistants.

(iv) In the cases of Dr. K. Krishna Bhat (Ophthalmic) and Dr. B.Ramanna Hegde (Veneriology) they will be additional assistants since the Principal has already said in his letter that they do not possess the requisite qualifications and experiences for teaching purposes.

(v) As regards the appointment of Dr. D. Hari Rao, MB., FRCS., DLO., (Eng) as a professor of Oto-rhino-laryngology:- . Dr. Hari Rao is now Honorary Anaesthetist in this Hospital and I do not know how these posts of an Anaesthetist and that of a full time Professor of Otorhino-laryngology and E.N.T. Surgeon could be combined though he is an eminent specialist in both branches. This point shall be clarified by reference to the Principal and a reply regarding this point will follow later.

(vi) As regards the Radiologist Dr. C.G.Padmanabha Rao, D.M & S.D.MR., a suitable Civil Assistant Surgeon with qualifications and teaching experience should be posted. As apparatus for Deep X-ray thereapy - Chaoues therapy, radium is to be installed the rediologist will have to be in full charge of the X-ray department and his rank and pay if he is required to give clinical instructions to the students, should be that of a Reader.

Sub: Hony.Medical Officers - Govt. Wenlock Hospital, Mangalore - Creation of additional honorary posts in connection with the clinical training of the students of the Kasturba Medical College - Sanctioned.

Ref: From the Registrar, Kasturba Medical College, No.1116/G1/B/55-dt. 22-8-1955.
From the D.M.S., No.77415-E2/55, dt.4.11.55.

--

Order (Ms) No.3652 Health, dt 2/12/55

The Govt. sanction the creation of the following additional posts of Honorary Medical officers and Honorary Assistant Medical officers in the Govt. Wenlock Hospital, Mangalore, in connection with the clinical training of the students of the Kasturba Medical College, Manipal:-

(i) Hony.Asst.Medical Officer, Anaesthesia - One post

(ii) Hony.Asst.Medical Officer - Clinical Pathology - One post

(iii) Hony.Medical Officer, Ophthalmology - One post

(iv) Hony.Medical Officer, E.N.T. - One post

(v) Hony.Medical Officer, Dermatology and Venerealogy - One post

(vi) Hony.Medical Officer, Tuberculosis - One post

2. The Hony. Medical Officers, Ophthalmology, E.N.T., Dermatology and Venerealogy, and T.B., when appointed, will be in charge of the respective depts. The Hony.Asst. Medical Officers, who are now in sub-charge of these depts.,will work under the Hony.Medical Officers.

3. The Govt. agree that it is

SO

not necessary to appoint the Professors of Pathology, Bio-chemistry and Bacteriology of the Kasturba Medical College as Hony.Medical Officers in the Hospital. There is, however, no objection to their supervising the work of the Clinical Pathologist or themselves carrying on the work in the laboratory. -p 3 N.F.

ibid-

4. Dr. D. Hari Rao, who is at present Hony.Medical Officer in the Anaesthesia Section of the Hospital, should apply and take his chances along with other applicants, if any, for appointment to the post of Hony.Medical Officer, in the E.N.T. Section. -p 3 N.F

5. The Registrar, Kasturba Medical College, should take steps is required to for filling up the posts. - Vide 'K' al. p 5 cf. un. 1.F (CONo 77312/55)

The Registrar, Kasturba Medical College, Manipal (South Kanara)

3 S/cs.

H.E.L.A.(H.I) Dept.

From the Principal, Kasturba Medical College, Manipal,
C.No. 1116/G1-B/55, dated 22-8-1955.
From the D.M.S. No. 77415-E2/55, dated 4-11-1955.

Sub: Medical Colleges - Kasturba Medical College, Manipal - Clinical training for the students - Provision of facilities in the Govt. Hospitals at Mangalore.

The case relates to the creation of addl. posts of Hony. Medical Officers in the Govt. Wenlock Hospital, Mangalore, in connection with clinical courses to be conducted for the students of the Kasturba Medical College, Manipal.

2. In G.O.No.3425 Health, dated 20-12-54, the Govt. approved the proposals of the D.M.S. for the provision of the necessary facilities at the Govt. Hospitals at Mangalore, for clinical training to the students of the Kasturba Medical College. According to para 3 of the G.O., the present Honorary Medical Officers of the Govt. Hospitals concerned should be employed by the College authorities on terms of mutual agreement and that the ENT, Ophthalmic, T.B., etc. Depts. should be placed in charge of Hony. Asst. Surgeons, who will do the teaching work on conditions mutually accepted. The above facilities have been extended subject to the condition that the authorities of the College must safeguard the interests of the Hony. Medical Officers who are at present working in the Wenlock and the Lady Goschen Hospitals, Mangalore, and their successors, who will be appointed by Govt. in accordance with the existing rules, by suitably providing for them.

3. The Principal of the College has submitted proposals to the D.M.S. for the creation of additional posts of Hony. Medical Officers in certain depts. of the Wenlock Hospital, Mangalore.

The Principal states that the additional Honorary staff is necessary to undertake teaching work in various subjects (viz Ophthalmology, ENT, T.B. etc.) when the present batch of students in the clinical section enter on the second year of their clinical course in January 1956. The remarks of the D.M.S. are at pp. 23-24 c.f.

4. The proposals are examined below:-

(a) Anaesthesia: There is already one post of Hony. Medical Officer in the hospital. The Principal considers that an additional Anaesthetist in the grade of Hony. Medical Officer is necessary, as ~~there are now~~ one Anaesthetist is not sufficient for the three Surgical units functioning in the hospital. The D.M.S. recommends that one post of Hony. Asst. Medical Officer may be created for the dept. He considers that there is no necessity for the creation of an additional Honorary post in the grade of Honorary Medical Officer. It is for orders whether his recommendation may be accepted.

(b) Clinical Pathology: The Principal has proposed the creation of a post of Hony. Medical Officer (Clinical Pathology) for the reasons stated in his letter at pp. 25-26 c.f. He has also proposed that the Professors of Pathology, Bacteriology and Biochemistry of the College may be appointed as Hony. Medical Officers, as they will have to work in the hospital laboratories and also supervise the work of the Clinical Pathologists. The D.M.S. considers that there is not sufficient justification for the creation of a post of Clinical Pathologist in the grade of Hony. M.O., as suggested by the Principal. He states that a post of Hony. Asst. Medical Officer will be sufficient, as his work will be supervised by the Professor of Pathology. The Director also considers that it is not necessary to appoint the three professors mentioned above, as Honorary Medical Officers, merely on the ground that they have to supervise the work of the

Clinical Pathologist or to carry on the work in the laboratory. He considers that it will be sufficient if the professors are permitted to supervise or carry on the work in the laboratory. It is for orders whether the suggestions may be agreed to.

(c) Ophthalmology, E.N.T., Dermatology and Venereology and T.B.

There is at present one Hony. Asst. Medical Officer in charge of each dept. The Principal states that as the existing officers do not possess the requisite post-graduate qualification and teaching experience, qualified persons should be appointed so that they can undertake teaching duties. The D.M.S. recommends that four posts of Hony. Medical Officers, one in each of the four depts. mentioned above may be created. The recommendation of the D.M.S. may be accepted.

The Principal has suggested that Dr. D. Hari Rao, who is at present Honorary Medical Officer (Anaesthesia), may be appointed as Hony. Surgeon for E.N.T., as he is qualified for the post. The D.M.S. has suggested that Dr. Rao will have to apply for appointment when the post is advertised and that he should take his chances along with others. The suggestion of the D.M.S. may be agreed to.

The Hony. Asst. Medical Officers who are now in sub-charge of the depts., will work under the Hony. Medical Officers when appointed. The Hony. M.Os will be in full charge of the respective depts.

(d) Radiology: The Principal has stated that Dr. C.G. Padmanabha Rao, the Radiologist in the hospital holds only a Diploma in Medicine and Surgery and does not have the necessary basic qualification (M.B.B.S.). As D.M.S. qualification is not recognised for teaching College students, he requests that a person with M.B.B.S. and D.M.R. qualification may be posted as Radiologist and that he may be permitted to teach the students of the College. The D.M.S. has submitted proposals separately for the creation of a post of

, in the category of clinical Lecturer.
Asst. Surgeon ~~with the requisite qualification to undertake~~ teaching work, in addition to the Asst. Surgeon already working in the hospital as Radiologist. The proposals are separately under consideration and the file has been sent to Finance Dept. The D.M.S. states when this post of Lecturer is sanctioned, an Asst. Surgeon with requisite qualification will be posted to the Wenlock Hospital, as desired by the Principal. No separate action seems necessary.

The file may be circulated to M.(H.) for approval of the above proposals.
